

Documentation in support of MARSOP 4

Version 2016-07-22

Appendix A: Station list Europe

```
*      Station descriptionfile
*      =====
*
*
*      The stations information is define as follows
*
*      1 - 7   === WMO stationsnumber
*      9 - 12  === FAA station code
*      14 - 43 === Stationname (Country)
*      45 - 52 === NB
*      54 - 62 === WL
*      64 - 67 === Altitude
*      69 - 70 === WMO country code
*      72 - 75 === WMO code of station of desimination
*
*
*      The coded information after the station information
*      is define as follows:
*
*      77 === What most the application do with this station
*           F, outside the area of interest of the Mars project
*           D, inside this area, but decode only. No stations file is made
*           S, inside this area and make a station file
*
*
*
*      1           2           3           4           5           6           7
