

# LPIS Quality Assessment

## Overview of the 2014 ETS scoreboards and Remedial action plans

March 2015

Agriculture  
and Rural  
Development

### Outline

- Missing ETS reports
- Overview of the scores
- Analysis of the results

2

Agriculture  
and Rural  
Development

## Quality Elements

QE1	The correct quantification of the maximum eligible area : bias (QE1a)
	The correct quantification of the maximum eligible area: over- and underestimation (QE1b)
QE2	The proportion of reference parcels where the maximum eligible area takes ineligible areas into account or where it does not take agricultural area into account
	The distribution of reference parcels where the maximum eligible area takes ineligible areas into account or where it does not take agricultural area into account
QE3	The categorization of reference parcels where the maximum eligible area takes ineligible areas into account or where it does not take agricultural area into account
QE4	The occurrence of reference parcels with critical defects
QE5	The ratio of declared area in relation to the maximum eligible area inside the reference parcels
QE6	The percentage of reference parcels which have been subject to change, accumulated over the years
QE7	The rate of irregularities determined during on-the-spot checks
	3

## Missing ETS reports

- France: only XML files received.  
(scoreboard / Remedial action plan not given to DG AGRI)
- Last Year (20140411): CY, HU, FR, LV, PT
- Remark: CY, IT

4

[illegible]

and Rural  
Development

## Analysis of the results

- Scores as such.
- Comments which are in general detailed....
- Possible remedial action plan.

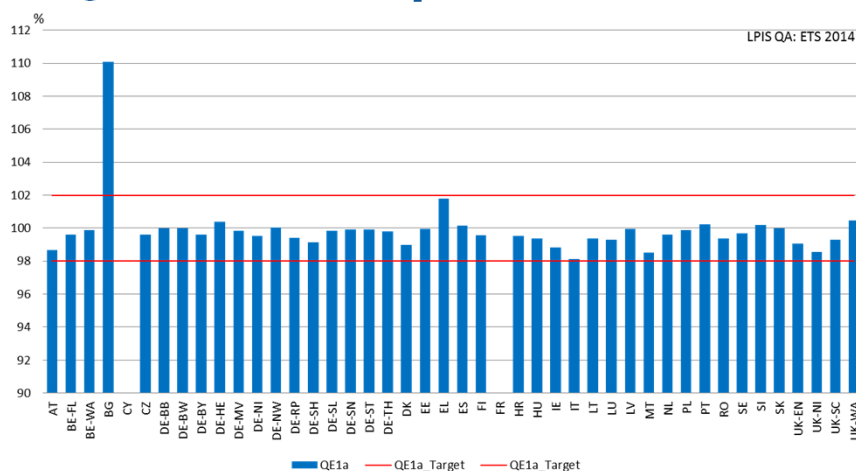

Agriculture  
and Rural  
Development

## Results: errors / discrepancies in figures

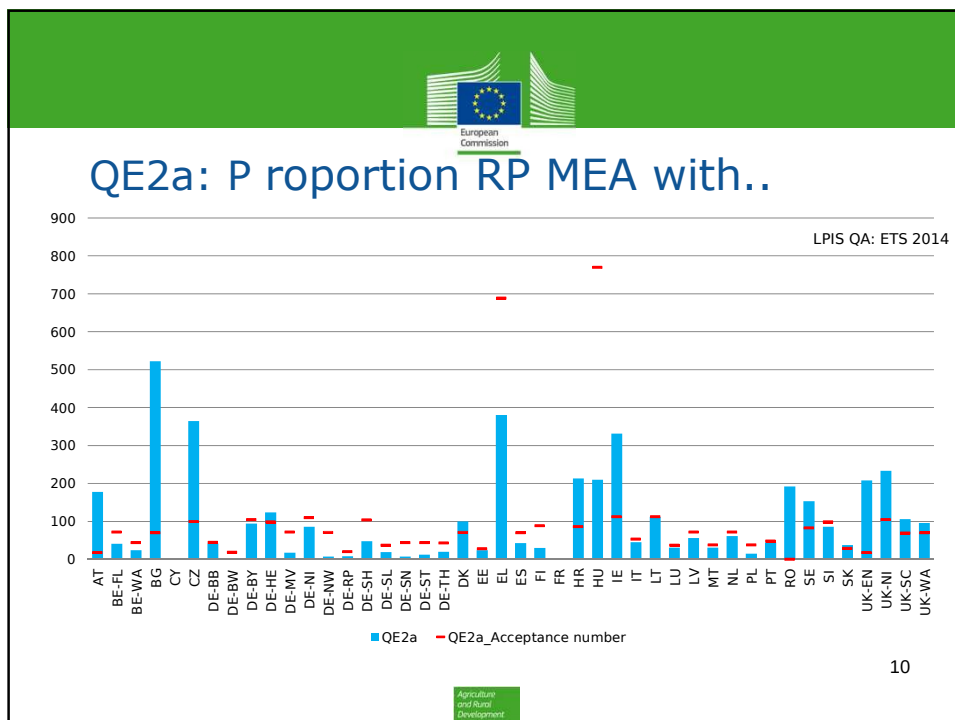

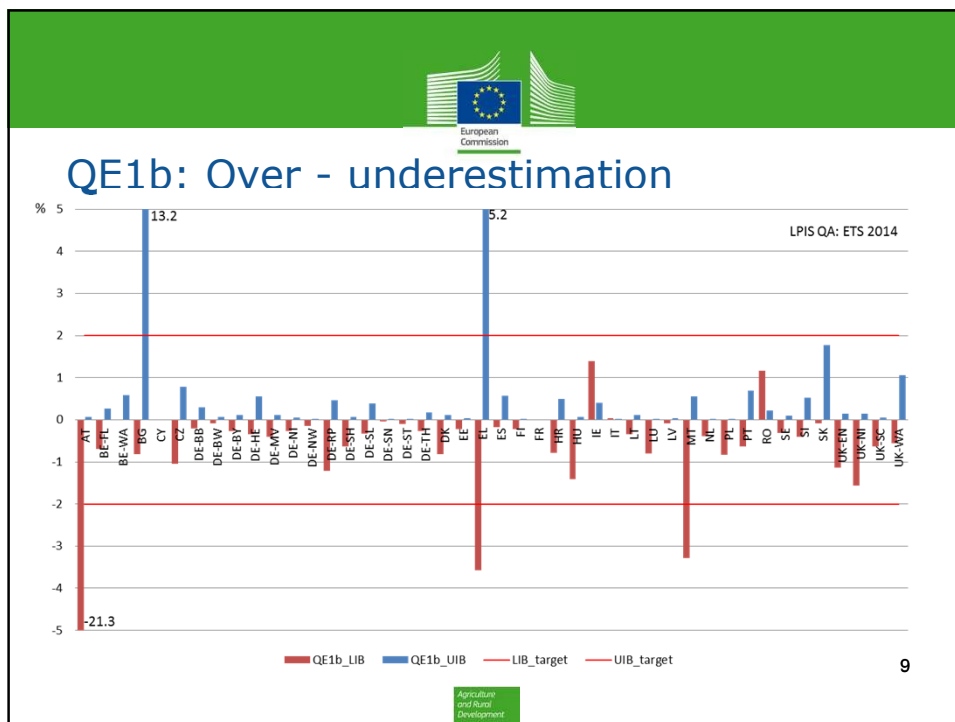

- Some discrepancies AGRI scoreboard / JRC XML scoreboards..
- Still some QE1b LIB with positive values instead of negatives values.
- QE2a & QE4 thresholds without value or null value.
- QE2a with obvious erroneous thresholds.

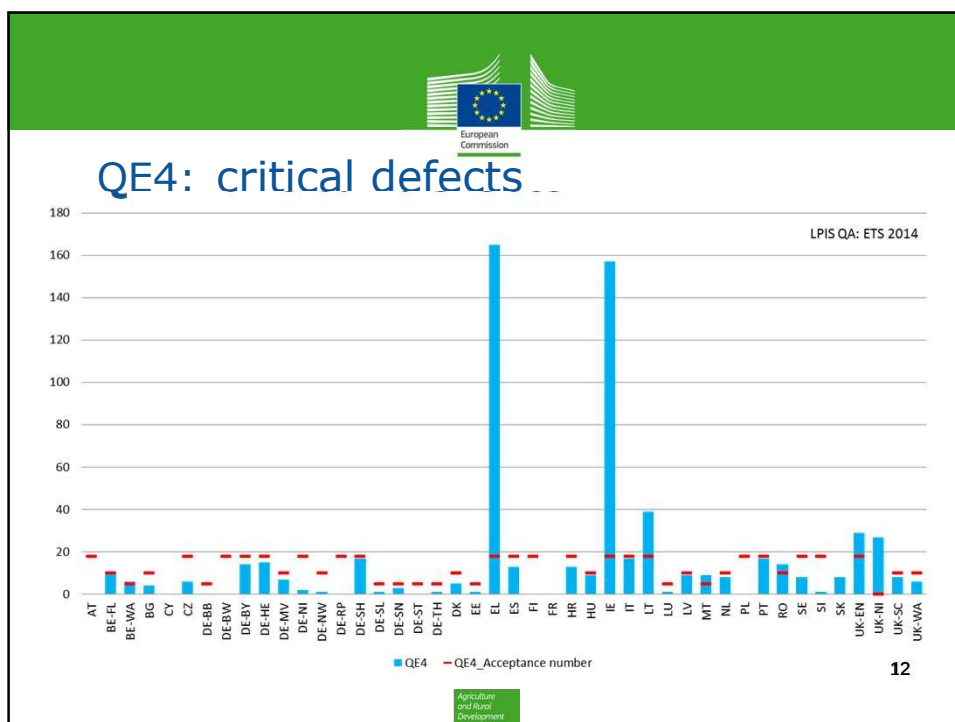

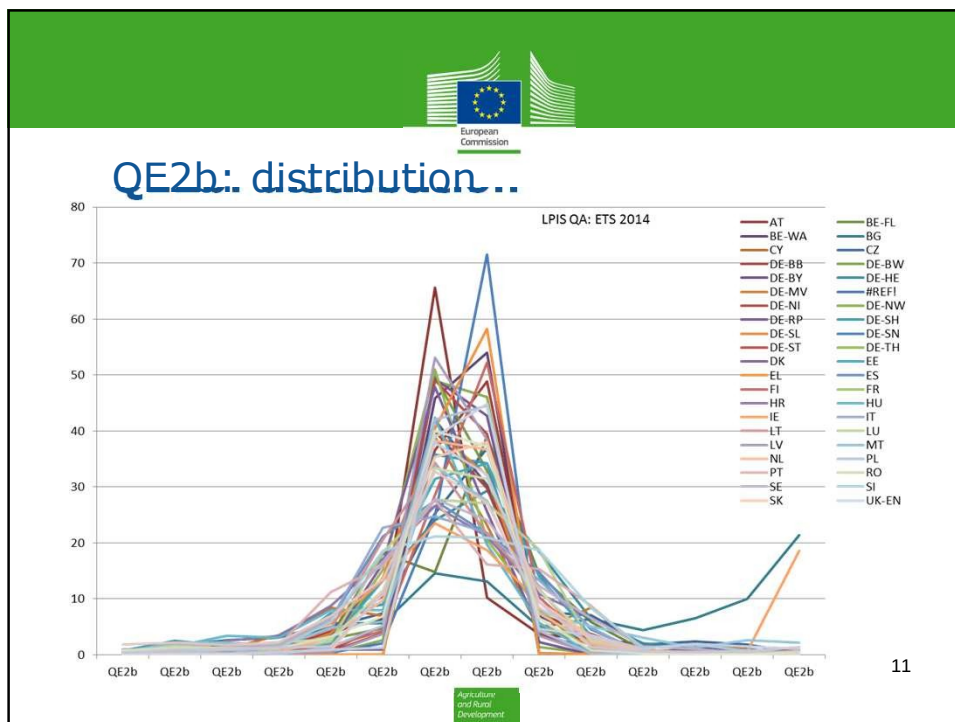

7

## QE1a: correct quantification MEA

8

## Reports results: errors...

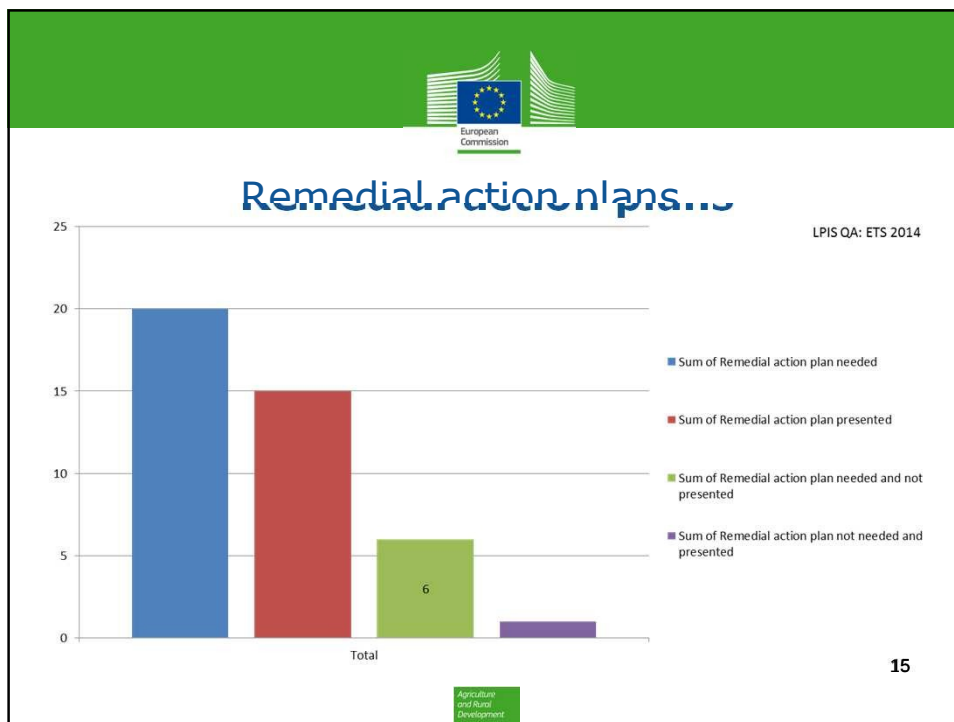

- Scores value -> conforming  
qualitative assessment is said non-conforming...
- Improvement from last year: no more  
scores value non-conforming  
~~qualitatively assessment said as conforming.~~
- BUT: if erroneous thresholds values....
- Some poor results in QE without clear explanation.

13

## Results & Remedial action plan

- Failing in one of QE1 , QE2 or QE4  
should lead to a remedial action plan.  
Not always provided.

14

  
European Commission

## Conclusion

- Still preliminary results.
- Improvement compared to ETS 2013 has been achieved.
- Given figures to be double-checked.
- Remedial action plan not always provided.
- Obviously some work remains... but...
