

Title: **Study on administrative burden and IACS**

Speaker: **Ms Ana BRNCIC**

Organisation: DG AGRI, Unit D3 – Implementation support and IACS.

Addressing an ECA recommendation to establish a methodological framework that Member States can use to assess the cost-effectiveness of their LPISs, DG AGRI has decided to commission a study that would address this point and, more generally, the issue of administrative burden and costs related to the administration and control of direct aids including IACS and cross-compliance. The presentation will highlight the main study themes, the expected implementation timeline and outputs of the study.
